Sir,

The Revised Estimate for 1940-1941 and the Budget Estimate for 1941-1942 for Water Supply and Drainage Schemes, are being received from the Superintending Engineers of Circles and the total demand under "GRANT" will be known only after all the reports are received. Hence it is not now possible to say whether the whole or part of the saving of Rs.58,940/- under "grant" provided for the Bellary Drainage Scheme, during the current year

4

year, will be required for any other works. I request that necessary action may kindly be taken on this saving after the receipt of the total demand which will be forwarded to Government by 15th September 1940.

Finance (B.G.) Dept.

Under para. 92 of the Madras Budget Manual, (2nd Edition), savings should not be kept in reserve by the disbursing or controlling officer to meet possible unforeseen excesses under other heads. All savings should, when they come to notice, be immediately surrendered and the amount reappropriated to wipe off the deduction for probable savings under the grant, where such deduction has been made.

Credit has been taken for a probable saving of Rs. 4,09,600 under "50. Civil Works - Grants-in-aid - Grants to local bodies for Water supply and Drainage schemes executed by the Public Works Department".

The saving of Rs. 58,900 may be resumed and adjusted against the above deduction.

Edn. & P.H. may be requested to surrender the saving and to modify para. 3 of the draft order suitably.

The draft order may otherwise be accepted.
